CUTOUT

Determine the position and location of the unit on the work surface. Make a cutout in the desired location on your work surface. Allow enough clearance for unit operation. DO NOT place unit where cable is strained or trapped. Cut the hole at 2-3/8" diameter (60.00mm).

2

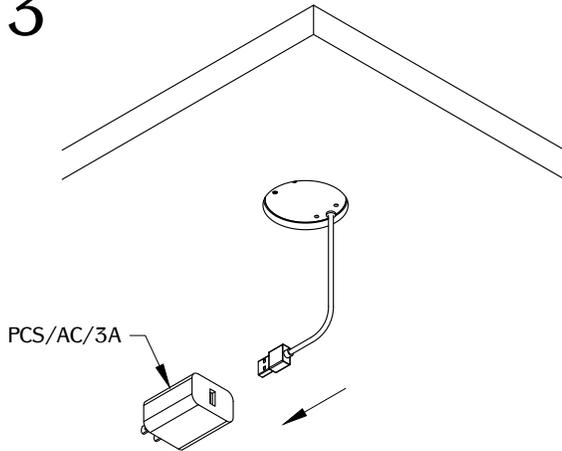

Install the WCS8/UC into the cutout and make sure it is fully leveled onto the work surface.

3

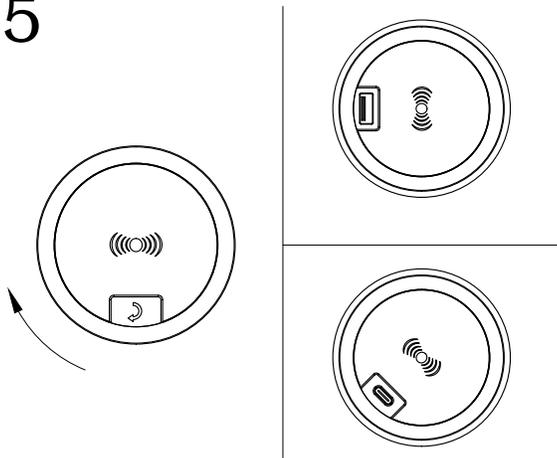

Plug in the USB-A connector from the unit to the PCS/AC/3A port. Plug into a nearby outlet and unit is ready for use.

4

Position the mobile device on the center of the charging area. The charging icon will activate on the device's screen when properly aligned at the center of the charging area.

5

Turn the cover clockwise to access the USB-A and USB-C ports.
