# POWER GROMMETS

Power for every room! Our extensive line of power, data, and USB charging options offer convenient power options where you need them most.

Don't see what you're looking for? We can make it to your exact needs. Give us a call!

## Pop-Up Power Outlets

### ***PCS36A/USBAC***

This contemporary pop-up power grommet can be accessed by pressing down on the lid to access a single outlet and a single USB-A and USB-C chargers. Then press back down when not in use to hide away nearly flush with the surface.

Available in Black and Satin Aluminum.

## Charging Options

### ***UCS8/65W***

This subtle unit offers convenient access to USB A and C charging right at your fingertips. At just over 3" long, it can be installed into the smallest of areas where traditional outlets may not fit. Two-screw installation and plug-and-play capabilities make set up a breeze. When the charging ports are not in use, slide the dust cover over to keep debris out.

Available in Black and Egg White.

### ***UCS5***

When it comes to charging, options are always a plus. This compact surface mount grommet comes equipped with one USB-A port, one USB-C port, and a hole for wire pass through. Great for keeping charging cables out of the way but still accessible when needed.

Available in Black and White Grey.

## **Wireless Charging**

### ***WCS9***

Charge your phone or mobile device wirelessly and keep your work surface clean from clutter caused by cables. Easy to install into a 2 5/16" diameter cutout by dropping in from the top. Ridges on the side of the grommet skirt bite into the core of the desk for a secure hold. Keeps a low profile for a sleek look on any desktop.

Available in Metallic Silver.

# GROMMETS & WIRE MANAGERS

Grommets are where we got our start. And, unlike most things from the 80s, they remain a staple in interior design! But what do you do with those cords you neatly routed through the desk surface? Wire Management is a must too!

Our line of Grommets & Wire Management are not only functional, they look great too!

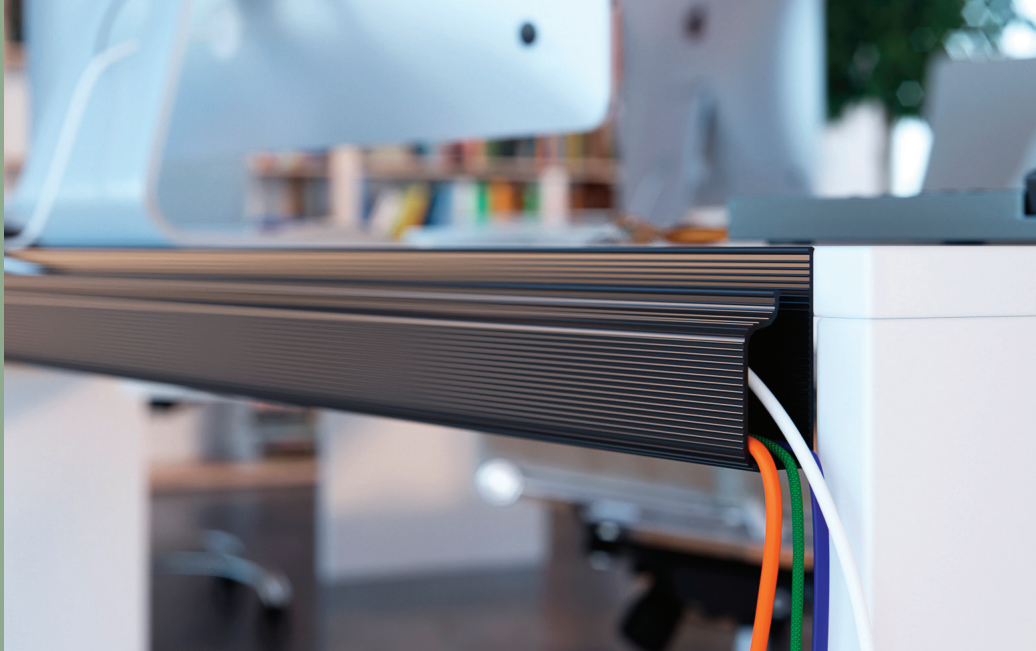

## Grommets

### ***Classic Grommets***

This classic grommet cap and liner features a Flip-Top® tab that closes and covers the cord slot when not in use for a completely seamless look. Need a vent or solid cap? Choose a top that fits your needs.

Available in a variety of sizes with 11 plastic finishes and four sleek plated finishes.

## ***WM2***

Clean and to the point, WM2's modern design is easy to instal and use on a daily basis. It secures to the back or side of your work surface and is the perfect option for areas where cords need to be moved often, or simply need to be kept out of harms way.

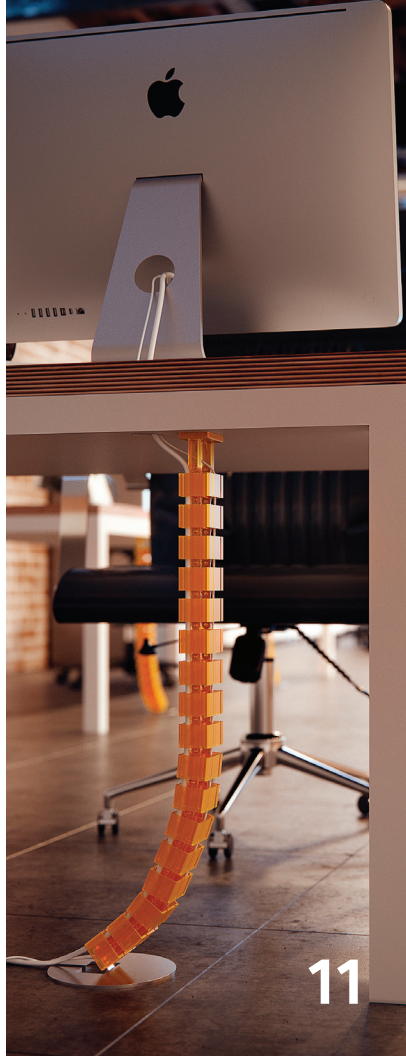

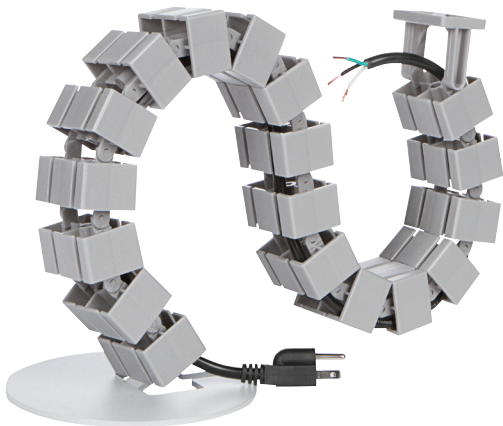

Available in four colors.

## Wire Managers

### ***WM16 Snake Wire Manager***

If you can't completely conceal your wires, why not have some fun with them? The Snake is perfect for adjustable sit-stand desks and has additional add-on vertebrae to get them to the exact size you need.

Available in six colors.

# DRAWER PULLS & DOOR HANDLES

We are proud to offer an extensive line of nearly 400 of the finest drawer pulls and knobs on the market. Not to mention our growing line of door handles! We take quality in design very seriously - our exquisite line of cabinet hardware features a timeless blend of classic and contemporary options.

## Drawer Pulls

### ***DP284***

Exquisitely modern. Utterly refined. DP284's interesting profile creates a V-shape with the cutaways on either end to give it a striking contemporary look. The flat-face handle makes for a slim profile on the surface of the drawer.

Available in four finishes.

### ***DP287***

These beautiful aluminum handles have a flat top and graceful slope that thickens at the base making for a hearty grip surface. They are surprisingly durable for how lightweight they are and their 1/16" profile means they sit nearly flush with the top of the drawer.

Available in two sizes and finishes.

### ***DP290 & DP307***

This complimentary knob and pull are made entirely of OceanIX, a material that is composed of plastics collected from the maritime industry, such as nets, ropes, and trawls. They're a sustainable, eco-friendly alternative to stainless steel hardware. You'll be shocked that these sleek, sturdy pulls are actually made of recycled materials!

Available in Black.

## **Door Handles**

### ***DH401***

These stunning door handles feature a Satin Nickel rod artfully wrapped in the finest leather. Inspired by their smaller drawer pull counterparts, this extremely popular design has expanded into a new larger size making for some strikingly elegant door pulls.

Available in Satin Nickel with three leather finishes.

# LEGS & BASES

Our legs and bases are some of the most gorgeous around. All sizes and styles from traditional to contemporary to ultra-modern – we pride ourselves on having the best designs, quality, and finishes on the market.

## Furniture Legs

### ***FL19***

Luxurious furniture legs cast with a decorative tapered shape and an offset top plate for mounting. Hefty arm projects outwards from the mounting bracket, then tapers downwards. Sturdy aluminum construction with a thin profile. Fixed leveler attached.

Available in five finishes.

## Table Legs

### ***TL37B***

Strikingly simple. Elegantly deluxe. TL37B is a highly versatile, modern twin table leg that will fit into any design landscape. Its slender figure consists of two rectangular legs that stand high with a stretcher between them. Perfect for high-end workstations, home offices, executive desks, or even dining tables.

Available in Black and Satin Stainlees finishes.

## Table Bases

### ***TL75***

The X Leg is formed by two large steel columns meeting in the middle for a perfect crossing. This contemporary leg is the perfect addition to desks, entryway tables, dining room tables, and more.

Available in Black.

# KITCHEN BATH & CLOSET

We entertain in kitchens, refresh in the bathroom, and store our precious belongings in closets. These spaces deserve a little extra attention to detail when it comes to design. Enjoy our superb line of Kitchen, Bath & Closet Hardware.

## Coat Hooks

### ***CH60***

This multipurpose hook can be used virtually anywhere – in the bathroom for towels and robes, in the closet for clothes or bags, in the entryway for jackets and coats – let your imagination run wild! It's beautifully curved double-hook body allows for extra hanging real estate and makes for a smooth, contemporary look.

Available in three finishes.

## Towel Bar

### ***RCK26***

This functional double towel bar features two rods that move independently of each other, allowing one or both to swivel out up to 180 degrees to accommodate your hanging needs. This unique design is an ideal option for boutique hotels, bathrooms, or anywhere where you may need a towel close at hand.

Available in Black and Satin Stainless Steel.

## Kitchen Power

### ***PCS103A and PCS103B***

These stunning pop-ups are available with a beveled edge that sets over the surface, or with a completely seamless surface mount installation. The unit is UL listed (UL 498) and is rated for counter tops, have two water and tamper resistant receptacles, and feature a spring-loaded pop-up mechanism that pops up when access to power is needed.

Available in six finishes.

## Sliding Door Hardware

### ***SDH3***

The warmth and charm of sliding barn doors is always a welcome presence in interior design. This beautiful double door hardware set is perfect for sealing off closets, conference rooms, foyers, or any large room or passageway. They work with wood, glass, or virtually any kind of custom door of your choosing.

Available in Black.
