Connector  
Cord

2-3/4" X  
1-1/4" X  
1-7/32"

5 ft. Cord

3-1/4" X  
1-1/4" X  
1-7/32"

NOTE:

- Do **NOT** remove tape!
  - Use Smartlink 2.0 units only.
  - For use on a normally dry work surface.
  - Table thickness is 3/4" MIN. and 1-11/16" MAX.
  - Please use applicable adapter from data tree.
- (See PCS tree on page 3 for more information.)

2

Place metal clips near the ends of the back of the unit. (NOTE: Metal clips are for use in hard surface material only as an optional mounting means.)

4

Peel the adhesive film and place under the work surface. Install the cord.

5

Secure unit by turning bottom wing clamp.

1

Determine the position and location of the unit on the work surface. Cut the hole at 8" X 4". Place and allow enough clearance for unit operation. DO NOT place unit where the cable is strained or trapped.

3

Guide the power cord through the cut out. Install the unit into the cut out and make sure it is fully leveled onto the surface.

TABLE OF CONTENTS:

.....1X PCS36B/DC-U

.....2X Metal clip

.....2X Wing clamp

.....1X Wire Manager

SOLD SEPARATELY

.....1X PCS/DAISYBOX

.....2X 1" Hook & Loop Fastener

6

Connect the Smartlink 2.0 connectors on to the PCS/DAISYBOX and unit(s). Align the pins and snap to engage the connections. Depress the tabs on both sides and pull apart to disconnect.

7

Plug in the PCS/DAISYBOX to a single 15 AMP outlet. DO NOT place where the cable is strained or trapped. The Smartlink 2.0 'indicator light' will be green or red. The Smartlink 2.0 with a "green" light means the unit is powered. It will indicate a "red" light when more than 8 units (16 MAX. power outlets total) are connected and the power will shut down. (Note: Flip the over current reset switch, when the load exceeds the rated current.)

8

Peel the film off the Hook & Loop fastener. Apply the Hook & Loop fasteners to the PCS/DAISYBOX.

9

Peel the film off other side of the Hook & Loop fastener. Place the PCS/DAISYBOX on to the underside of the work surface near the unit. Make sure the indicator light is visible.

- 1.) Select the appropriate adapter from the chart below. (example: Panduit Mini-Com Series jack would use "FF" adapter marked on back of adapter.)

\* Jacks, not included, UL Listed (DUXR) or Recognized (DUXR2) jacks required.

- 2.) Snap Jack into adapter following the instructions provided with the jack.
- 3.) Once assembled, snap adapter into the notched, square holes in the orientation shown.

**NOTE:**

Please verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.
